D.P.U. 22-92

September 13, 2022

Petition of The Berkshire Gas Company for approval of its annual pension adjustment factor reconciliation filing for effect November 1, 2022.

On August 8, 2022, The Berkshire Gas Company (“Company”) filed a petition with the Department of Public Utilities (“Department”) for approval of its annual pension and post-retirement benefits other than pensions (“PBOP”) adjustment factors (“PAFs”). The Company has made this filing pursuant to The Berkshire Gas Company, D.P.U. 18-40-B (2019) and M.D.P.U. No. 535. The Department has docketed this matter as D.P.U. 22-92. In a separate filing, the Company is proposing other changes to its rates effective November 1, 2022, that may also have an impact on customers’ bills. See The Berkshire Gas Company, D.P.U. 22-PGAF-BERK.

The Company proposes the following PAFs, effective for November 1, 2022, and included for billing purposes in the Company’s local distribution adjustment factor:

Rate Classes	PAF (per therm)
Residential	\$0.0322
Small Commercial and Industrial	\$0.0229
Medium Commercial and Industrial	\$0.0124
Large Commercial and Industrial	\$0.0071
Extra-Large Commercial and Industrial	\$0.0031

The Company proposes a PAF revenue requirement of \$1,692,715, which is a decrease of \$18,872 from the Company’s current PAF revenue requirement. As a result of the proposed changes to the PAF the average residential heating customer using on average 136 therms per month during the peak period will experience a bill decrease of \$0.06, or 0.02 percent, and a bill decrease of \$0.01, or 0.02 percent using on average 29 therms per month during the off-peak period. The average residential non-heating customer using 17 therms per month during the peak period will experience a bill decrease of \$0.01, or 0.02 percent, and an average monthly bill

decrease of \$0.005, or 0.01 percent using on average eleven therms per month during the off-peak period. For specific bill impacts, please contact the Company as shown below.
